In the practical application of scientific principles as embodied in useful inven-tions the negro has long held an impor-

The publications of Henry E. Baker of the United States patent office set forth a record altogether and comparatively favorable. These inventions run the whole gamut from Banneker's clock in 1754 to gamut from Banneser's clock in 1707 per Forten's invention of apparatus for managing sails, including Lewis' invention of a machine for picking oakum: Henry Slair's patents on a corn harvester; William's patents on a corn harvester; will-B. Purvis' patents on electric rail-a fountain pen, magnetic car, balways, a tountain pen, magnetic car, balancing device, etc.; Dickinson's patents
for playing the piano; Ferrell's patents
for the improvement of valves of steam
ragines. Benjamin F. Jackson's invention
of different improvements in heating and
of devices and a courreller for a of different improvements in heating and inghting devices and a controller for a rolley wheel; Charles V. Rieckey's inventions, including a device for registering the call on a telephone and detecting the unauthorized use of that instrument; Granville Wood's inventions; the Elijah Meroe inventions and the inventions of McCoy inventions and the inventions of John Ernest Matzellger, including the first machine that performed automatic-ally the operations involved in attaching

Then there are the latter-day and wartime inventions, including war bombs, machine and aircraft guns, explosive bulate, ribmarines and diving suits.

Daily Thought. There is nothing good or evil save in the will.-Epictetus.

How to Lose Your Tan, Freckles or Wrinkles

A day's motoring an afternoon on the termis court or golf links, a sunbath on this beach or exposure on a water trip, often brings on a deep tan or vivid crimical or, more perplexing still, a vigorous rop of freekles. A very necessary thing then is mercolited wax, which removes an redness or freekles quite easily. It iterally peels off the affected akin—just. If the at a time so there's no hurt or inconvenience. As the skin comes off in convenience, as the skin comes off in convenience. As the skin comes off in timost invisible flaky particles, no trace of the treatment is shown. Get an ounce it mercolized wax at your druggist's and the this nightly as you would cold cream, rashing it off mornings. In a week or so you will have an entirely new skin, beautifully clear transparent and of a most felicate whiteness.

Students attending our school, after taking courses elsewhere, as well as our own graduates will tell you that you can safeguard your time by starting your course at the Norwich Commercial School It is not necessary to take two years to finish bookkeeping, shorthand and typewriting. We have had pupils go direct from school to excellent positions in from eight weeks to eight months time. The time required depends upon your willingness to work and the ease with which you grasp the studies. You should study our new way, the right way, the best way, if you desire to advance most

PALE, SALLOW WOMEN

Need Not Be So If They Will Profit By The Experience Of Other Women In This City

Since Vinol was first introduced here some years ago it has made a great many friends among our women, because it is such an unusual remedy It is the first cod liver medicine eve to have been made without the oll and nauseating grease, and the Iron employed in its composition is an improvement over old medicinal irons. Many women here who were once pale and sallow and always tired, are now robust and strong, because Vinol certainly and autobly creates read blood eriginal and autobly creates and blood or the part of the contract of the cont certainly and quickly creates red blood and makes one's daily food produce the necessary nourishment for good health.

MAYOR LEROU'S PROCLAMATION

. Mayor Lerou issued the following proclamation Thursday night calling for the ringing of bells and blowing of whistles at noon on Saturday to signalize the passage of the suffrage amendment to the constitution of the United States: In recognition of the proclamation issued by Secretary Colby of the State Department that the suffrage amendment to the constitution has been ratified and as Saturday, August 28, 1920, at 12 o'clock noon. is the hour designated noon, is the hour designated throughout the United States when the ringing of Bells, the blowing of whistles will proclaim to all that women have been granted their po-litical equality, may I, as mayor of the city of Norwich, call upon churches, schools, manufacturers and others to assist in the above. Norwich, August 26, 1920.

HERBERT M. LEROU Mayor of the City of Norwich

There is wealth in peanuts for southern states. Fortunes have already been made out of this highly oil-producattraction—the bake: About 225 diners ing nut. Imports of more than \$40,- with 225 perfectly good appetites sat down and paid the best tribute which a oil in a single year. oll in a single year is the new record for the United States, despite the fact that it is one of the world's biggest producers of peanuts. This phenominal record, says a statement by the National City Bank of New York, grows out of the New World demand for food oils to take the place of animal fats. For several years continues the bank's statement, we have been importing large quantities of certain food oils, especially those produced from the co-conut. of which the quality imported has grown from 58,000,000 pounds in 1914 to 356,000,000 in 1918, while the value of all vegetable olls, imported jumped from \$24,000,000 in 1914 to \$123,000,000 in 5914, and approxiand approxi-

\$123,009,900 in C414, and approxi-mately \$140,000,000 in 1920.

But it was left to the humble pea-nut to show a spurt n the race for popularity in supplying vegetable fats in the fiscal year 1920, and the quan-tity of peanut oil imported into this great peanut-producing country of ours was, in the ten months ending with April 1920, 10,000,000 gallons against less than 8,000,000 in the correspond-ing months of last year, and less than ing months of last year, and less than 1,090,000 in the year proceding the war. Not only was there an element increase in the quantity of oil imported increase in the quantity of oil imported but there was also a corresponding increase in the importation of peanuts, of which the imports in the ten months ending with April. 1920, was valued at \$10,000,000 against less than \$1,000,000 in the same months of 1919, in the single month of April, the latest for which the retails are available the property of manufactures.

Increase in quantity.

The Bureau of Crop Evimation put the total farm value of the peanut crop of the United States in 1219 as \$80,000.

Fitting a Bear With New Teeth. A grizzly bear may wear out his teeth, just the same as a human being. When he needs new ones he gets them, particularly in America. More animal dentistry has been done here than in any other country. Once, when an old pet bear belonging to the owner of a well-known menagerie was fitted imports of peanuts aggregated \$0,000. With a complete set of false teeth, it 000 pounds, valued at \$1,000,000, and was necessary to give the plates to those of the oil, 2,800,000 gallons, val- the bear's mouth to been them in place.

Listening to "Fish Stories." Norwegian fishermen are using a species of submarine telephone to aid them in their work. A microphone is lowered from a fishing boat and connected by a wire to a telephone 3 the boat. The fisherman listens at the instrument and when the fish hold a meeting the listening device records the disturbance.- Scientific American,
